Subject: Review of Taxation of Plantation Forestry

Submission to your review

Dear Sirs

I refer to the above and advise that as one of thousands of innocent, law abiding , tax paying Australians, I invested in Tea Tree Plantations in the 1990's, and as a result of the immoral actions of the ATO now have a massive debt hanging over my head and live in constant fear of the Tax Office.

Please explain why a gum tree plantation is legal and deductable and a tea tree plantation is not ?

I will never again invest in anything in Australia or trust any pronouncements issued by your Government!!!!!!!!!!
