# **PRODUCTIVITY COMMISSION**

## **Section 1: Agency overview and resources**

### **1.1 STRATEGIC DIRECTION**

The Productivity Commission (the Commission) is the Australian Government's independent research and advisory body on a range of economic, social and environmental issues affecting the welfare of Australians. The Commission's work extends to the public and private sectors, including areas of State, Territory and local government, as well as federal responsibility.

As a review and advisory body, the Commission does not have responsibility for implementing government programs. It carries out inquiry, research, advising and incidental functions prescribed under the *Productivity Commission Act 1998*.

The Commission contributes to well-informed policy decision-making and public understanding on matters relating to Australia's productivity and living standards, based on independent and transparent analysis that takes a community-wide perspective rather than just the interest of particular industries or groups. The Commission has four broad components of work:

- government commissioned projects;
- performance reporting and other services to government bodies;
- competitive neutrality complaints activities; and
- supporting research and activities and statutory annual reporting.

It is anticipated the Commission's work in 2010-11 and the forward years will be integral to the national reform agenda. The Commission will continue to examine a variety of economic, social and environmental issues through its public inquiry and commissioned research program. Commissioned projects currently underway and carrying over into 2010-11 include: inquiries into *Rural Research and Development Corporations*, *Disability Care and Support*, *Caring for Older Australians* and *Wheat Export Marketing Arrangements*; studies of *Bilateral and Regional Trade Agreements*, the *Education and Training Workforce*; a continuation of the *Performance Benchmarking of Australian Business Regulation* study currently looking at land development approvals and planning and zoning regulation; and an ongoing *Review of Regulatory Burdens on Business* that is currently focused on business and consumer services.

### *Productivity Commission Budget Statements*

Several of the above commissioned projects have been initiated by the Council of Australian Governments (COAG). The Commission is also working with Australia's jurisdictions in respect of standing research responsibilities and specific projects. In particular, the Commission is providing cross-jurisdictional reporting to COAG on performance of government services; indicators of Indigenous disadvantage; and expenditure on services to Indigenous Australians. The Commission prepares and reports performance information to the COAG Reform Council in respect of the *Intergovernmental Agreement on Federal Financial Relations*. The Commission is also undertaking data development, modelling and analysis to report on the economic impacts and benefits of COAG's agreed reform agenda.

The Australian Government Competitive Neutrality Complaints Office (AGCNCO) is an autonomous office located within the Commission. Its function is to receive and investigate complaints and provide advice to the Assistant Treasurer on the application of competitive neutrality arrangements. AGCNCO also provides informal advice on, and assists agencies in, implementing competitive neutrality requirements.

The Commission has a statutory mandate to undertake research to complement its other activities. The supporting research program includes work on productivity performance and its determinants, environmental and resources management, labour markets (including social dimensions) and development of economic models and frameworks. The Commission's most recent research reports and staff working papers released in 2009-10 include *Developing a Partial Equilibrium Model of an Urban Water System*; *The Effects of Education and Health on Wages and Productivity*; *Work Choices of Married Women – drivers of change*; and *Modelling the Effects of the EU Common Agricultural Policy*. A full list of the Commission's research reports and Staff Working Papers is provided on the Commission's website.

The Commission has received \$4.0 million over four years as part of measures announced by the Government in the 2010-11 Budget, for industry reviews associated with the Renewable Energy Target.

## 1.2 AGENCY RESOURCE STATEMENT

Table 1.1 shows the total resources from all origins. The table summarises how resources will be applied by outcome and by administered and departmental classification.

## Section 2: Outcomes and planned performance

### 2.1 OUTCOMES AND PERFORMANCE INFORMATION

Government outcomes are the intended results, impacts or consequences of actions by the Government on the Australian community. Agencies deliver programs which are the Government actions taken to deliver the stated outcomes. Agencies are required to identify the programs which contribute to government outcomes over the budget and forward years.

The Commission's outcome is described below specifying the strategy, program, objective, deliverables and key performance indicators used to assess and monitor the performance of the Commission.

**Outcome 1: Well-informed policy decision-making and public understanding on matters relating to Australia's productivity and living standards, based on independent and transparent analysis from a community-wide perspective**

#### Outcome 1 Strategy

The Commission's activities derive from its statutory functions outlined in *Productivity Commission Act 1998* and reported in detail in the Annual Report. The Commission aims to demonstrate its effectiveness by reporting annually on the relevance, quality, timeliness and cost-effectiveness of its activities.

#### Outcome 1 Budgeted expenses and resources

Table 2.1 provides an overview of the total expenses for Outcome 1 by program.

**Table 2.1: Budgeted expenses and resources for Outcome 1**

## Contributions to Outcome 1

### Program 1.1: Productivity Commission

#### Program objective

The Commission's objective is to contribute to well-informed policy decision-making and public understanding on matters relating to Australia's productivity and living standards, based on independent and transparent analysis from a community-wide perspective.

#### Program expenses

The increase in expenses from 2010-11 is primarily due to the effect of the Commission's 2010-11 Budget measure.

**Table 2.2: Program expenses**

	2009-10 Revised budget \$'000	2010-11 Budget \$'000	2011-12 Forward year 1 \$'000	2012-13 Forward year 2 \$'000	2013-14 Forward year 3 \$'000

<b>Total departmental expenses</b>	<b>34,431</b>	<b>35,614</b>	<b>35,215</b>	<b>35,418</b>	<b>35,614</b>

#### Program Deliverables

The Commission will deliver:

- public inquiry reports (for example, the inquiry report on *Rural Research and Development Corporations*), and reports concerning other commissioned work (such as the continuation of the *Performance Benchmarking of Australian Business Regulation* study);
- government services performance reports including Australian Government/State/Territory service provision, key indicators of Indigenous disadvantage and the Indigenous expenditure report;
- investigation of competitive neutrality complaints and associated activities such as research, advice and education; and
- statutory annual reporting including the *Trade and Assistance Review*; Commission research and staff working papers prepared in support of the Commission's inquiry program and to contribute to better understanding of public policy issues; and associated activities such as submissions, conference reports and speeches delivered by the Chairman, Commissioners and Commission staff.

*Productivity Commission Budget Statements*

**Program key performance indicators**

The Commission aims to complete projects, reports and associated activities that are:

- high quality;
- useful to stakeholders; and
- timely.

Indicators of performance include:

- the Commission's work being widely referenced in public policy forums;
- projects and reports are completed in accordance with commissioned timelines; and
- independent and transparent processes are followed.

## Section 3: Explanatory tables and budgeted financial statements

Section 3 presents explanatory tables and budgeted financial statements which provide a comprehensive snapshot of agency finances for the budget year 2010-11. It explains how budget plans are incorporated into the financial statements and provides further details of the reconciliation between appropriations, program expenses, movements in administered funds, special accounts and government indigenous expenditure.

### **3.1 EXPLANATORY TABLES**

#### **3.1.1 Movement of administered funds between years**

The Commission does not have any administered funds.

#### **3.1.2 Special accounts**

Special accounts provide a means to set aside and record amounts used for specified purposes. Special accounts can be created by a Finance Minister's Determination under the *Financial Management and Accountability Act 1997* or under separate enabling legislation. Table 3.1.2 shows the expected additions (receipts) and reductions (payments) for each account used by the Commission.

The Productivity Commission's Services for other Governments and Non-agency Bodies Account was abolished with effect from 11 September 2009.

## 3.2 BUDGETED FINANCIAL STATEMENTS

### 3.2.1 Differences in agency resourcing and financial statements

There is no difference between agency resourcing and financial statements.

### 3.2.2 Analysis of budgeted financial statements

The Commission is budgeting for a break-even result in 2010-11 and the forward estimate years. The increase in revenue in 2010-11 is primarily a consequence of the effect of the 2010-11 Budget measure. There is a corresponding increase in operating expenses.
