RE: Exposure Draft—Currency (Restrictions on the Use of Cash) Bill 2019

Dear Manager,

I strenuously object to the [Currency \(Restrictions on the Use of Cash\) Bill 2019](#) that will ban cash transactions over \$10,000. More fundamentally, I denounce the agenda of the Treasury Department and government to increasingly subjugate us, the Australian people to the corrupted and failing financial system, rather than fix the system. This bill is the latest example of this agenda.

Cash transactions of this level is insignificant compared to the money laundering through casinos and real estate just to name a few.

I request more transparency and discussion with the broader Australian people and media before passing this bill.

I feel sincerely let down by the system for letting this submission getting as far as it has, in what appears to be a sneaky, backdoor, underhanded way, and clearly just the beginning of the restriction on cash.

Sincerely,

Jason Bezuidenhout
