## **Section 1: Agency overview and resources**

### **1.1 STRATEGIC DIRECTION**

There has been no significant change to the strategic direction of the Department of the Treasury (the Treasury) from that outlined in the *Portfolio Budget Statements 2010-11* (pages 15-17).

As a result of Administrative Arrangements Orders after the 2010 election, the sustainable population strategy function transferred from the Treasury to the Department of Sustainability, Environment, Water, Population and Communities.

The Treasury is seeking an additional \$1.1 million in departmental outputs through Appropriation Bill (No. 3) 2010-11. This relates to an additional \$0.9 million for the tax forum and \$0.3 million for the banking reform education and awareness campaign, offset by a saving of \$0.1 million for the termination of the Financial Reporting Panel.

The Treasury is also seeking an additional \$16.5 million in administered expenses through Appropriation Bill (No. 3) 2010-11. This relates to an additional \$9.9 million for the banking reform education and awareness campaign and \$6.6 million for the education tax refund information campaign. The education tax refund information campaign will be offset by redirecting funding from the Australian Taxation Office's Private Health Insurance and Superannuation media campaigns.

### Notes to the financial statements

The Treasury's budgeted statements are prepared on an accrual basis in accordance with:

- the Government's financial budgeting and reporting framework; and
- Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board.

Under the Government's accrual budgeting framework, and consistent with Australian Accounting Standards, transactions that departments control (departmental transactions) are separately budgeted for, and reported on, from transactions departments do not have control over (administered transactions). This ensures that departments are only held accountable for the transactions over which they have control.

Departmental assets, liabilities, revenues and expenses are controlled by the department. Departmental expenses include employee and supplier expenses and other administrative costs, which are incurred by the department in providing goods and services.

Administered items are revenues, expenses, assets or liabilities which are managed by the department on behalf of the Government according to set government directions. Administered expenses include subsidies, grants and personal benefit payments, and administered revenues include taxes, fines and excises.
