

It is my belief Savings Banks should not gamble with our savings that we have worked so hard for and gone without, so as to have something behind us.

If i wanted to gamble that money i would do it myself.

Don't risk other peoples money given to you for safe keeping!

I want these too-big-to-fail banks made smaller under a fair dinkum

Glass-Steagall bank separation.

Like i said, people's hard earned money should not be used to gamble with and, no ones savings should have to go to prop up those banks under any type of bail-in.
