Submissions to the Financial System Inquiry

Resetting our approach to banking

"Nature shrinks as capital grows. The growth of the market cannot solve the very crisis it creates." ~
Vandana Shiva

To Whom it May Concern

I ask only one favour:

The inquiry persons/ board/ appointees read "The Public Banking Solution: From Austerity to Prosperity" by Dr Ellen Brown. There are others like "Myths Lies and Oil Wars" by F. William Engdahl, also an equally important read. These are American authors writing about the own banking Ponzi scheme, so that gives them a lot of cred.

If you do this Australians have a chance to avoid being swept away when the next financial collapse occurs. At the moment we look and are acting like lobotomized calves following that mastitis infested Anglo-US-Basel private banking cow.

Yours sincerely,

Terry J Wall
