

To whom it may concern,

As a voter in this democracy,  
I strongly object to my financial status being at the whim of  
a bank's board of directors who would presume the right to  
access my deposits to prop up their own mistakes. I will  
not be a party to any decision to "BAILEY" any financial  
institution.

In the event of another global financial  
collapse, I want my money to be protected in a government  
bank that does not speculate in futures et al. and is isolated  
from such schemes as preceded the last financial crash.  
i.e. I want a CLASS-STRACHA system in the land.

Sincerely

Saja W. Nichols.
