Dear Sir

I write to you & your fellow members of the FSI, to voice my strong objections to the much talked about propping up of the Too Big To Fail Banks using "Bail In", in fact the whole of the current Financial System.

There is no need for me to lecture you on the imminent collapse of the World Financial System, the price that we, the people, will be asked to pay, because that is History if we care to read & learn from it.

History tells us what leads to Depressions & Wars etc, & it also tells us how best to avoid such destruction.

History tells us how the USA under Roosevelt was able to transform the nation, & it also tells us that when the rest of the world was on its knees, that America had become a powerhouse of prosperity, wealth & production.

History also tells us that in 1933 USA enacted a Bill called Glass Steagall, to separate & regulate the Powers of Banking, & rebuilt its National Bank & used the Hamilton / Carey system of Credit, to finance its revival without borrowing from abroad.

History also tells us of USA's demise & direction, especially since the repeal of Glass Steagall in 1999.

The methods that Roosevelt used will be every bit as effective today as they were in 1933.

Only the full adoption of Glass Steagall (NOT the Vickers Ring-fencing) can save us from war & / or depression & protect the Common Good. Is that not the role of elected Government?

And how do we know this? Because History Always Repeats Itself. Why? Because we either don't listen & learn from previous mistakes & / or we think we are smarter than HISTORY & / or we are completely mislead by those in Authority.

You & your members of the financial ~~ing~~ System  
Inquiry, & the Government of Australia have a MORAL &  
CONSTITUTIONAL obligation to protect the people of Australia,  
& indeed all mankind. You will have a choice of either  
supporting a Prudent Banking System, (GROSS SOBRIETY) which  
will rebuild this nation & bring peace & prosperity to its  
people, or to use the Blood of the Australian Citizens  
to feed the Ravenous Collapsing Financial System that  
prefers the Idolatry of Money above Humanity

I hope & pray that you choose to protect Humanity.

I wish you well in your deliberations. ~~The~~  
Our future depends on it.

Richard J. Willen,
