Subject: Re: Response letter to the Australian government's consultation paper on climate disclosure standards
Date: Thursday, 13 July 2023 2:41:49 PM

Dear Treasurer,

As a PHD student in accounting at Western Sydney University, I am writing to express my strong support for the Australian government's consultation paper on climate disclosure standards (Australian Government, Treasury, 26 June 2023). Personally speaking, I believe that these standards are essential to accelerate the transition to a low-carbon economy in Australia.

I also think that Australian universities should introduce new courses on carbon disclosure, carbon accounting, and carbon assurance to help companies and accounting professions to prepare carbon reports based on the new standards. Carbon accounting education at university level is an important part of the management for the forthcoming shift from corporate voluntary to mandatory climate disclosure.

Thanks for your time and consideration.

Sincerely,

Regards
